Education

Vellore Institute of Technology, Bhopal *2027*
B.Tech in Computer Science Engineering (Health Informatics) CGPA – 9.17 | Full-time

Technical Skills

Languages: C++, JavaScript
Core Subjects: Data Structures and Algorithms, OOPS, DBMS, Operating Systems
Frontend: React.js, React Router, Context API
Backend: Node.js, Express.js, REST APIs, JWT Authentication
Database: SQL, MongoDB, Mongoose
Tools: Git, GitHub, Postman, Vite

Experience

Web Development Intern *May 2026 – Jun 2026*
Ace Infoway Pvt. Ltd.

- Strengthened React.js fundamentals: components, JSX, props, hooks, custom hooks, state management, and Virtual DOM.
- Practiced routing, forms, protected routes, and API integration using React Router, Context API, and Axios.
- Built REST APIs using Node.js and Express.js with routing, middleware, body parsing, and status codes.
- Implemented Mongoose schemas and models for MongoDB, with bcrypt hashing, JWT, and protected API routes.

Projects

ContextSyncAI – AI Meeting Intelligence Platform GitHub | Live Demo
MERN, LiveKit, Deepgram, Groq Llama 3.3, MongoDB, Hugging Face Transformers

- Built a full-stack AI meeting platform with secure authentication, LiveKit-powered real-time video meetings, Deepgram speech-to-text transcription, and automated AI-generated meeting summaries with action items, key decisions, risks, and next steps.
- Engineered a Retrieval-Augmented Generation (RAG) pipeline using transcript chunking, MongoDB Atlas Vector Search, and Groq Llama 3.3 to enable semantic retrieval and natural-language question answering over meeting transcripts.
- Implemented meeting-specific vector search with filtering, persisted transcripts and embeddings in MongoDB, and integrated a React-based AI assistant for querying meeting history through a REST API.

Daily Journal App – Full-Stack Personal Journaling Platform GitHub
React, Vite, Tailwind CSS, Node.js, Express, MongoDB, Mongoose, JWT

- Built a full-stack personal journaling application with a React/Vite frontend and a Node.js/Express backend for creating, viewing, updating, and deleting daily journal entries.
- Implemented JWT-based authentication with protected routes and bearer-token authorization for private journal access.
- Designed MongoDB and Mongoose models with owner-scoped queries so each user can manage only their own entries.

Certifications & Achievements

- **Blockchain and Its Applications** – NPTEL, Top 5%.
- Secured **3rd place** in the AI Hackathon held at Ace Infoway Pvt. Ltd. during internship.
- Ranked **3,850th out of 36,481 participants** in Leetcode's **Biweekly Contest 192**.
- Solved **300+ DSA problems** across platforms such as LeetCode and Codeforces.

Extracurriculars

- **Trekking** – Completed high-altitude treks: Kedarkantha (12,500 ft) and Hampta Pass (14,560 ft).
- **Football** – Played at regional level.
